

Creonic Participates as Event Sponsor at AMD RTT EMEA 2025

Kaiserslautern, Germany – November 4, 2025 – Creonic GmbH, the leading provider of ready-for-use IP cores for communication systems, is pleased to announce its participation as an event sponsor at the AMD Regional Technical Training (RTT) EMEA 2025. The event, taking place in Dublin from November 4–7, brings together AMD Field engineers, solution architects, and technical stakeholders supporting adoption of AMD FPGA and adaptive SoC technologies.

“The AMD RTT event is an excellent opportunity to engage directly with the AMD Technical Embedded Sales organization,” said Timo Lehnigk-Emden, CEO at Creonic GmbH. “It allows us to exchange technical perspectives, discuss integration paths, and explore how our IP cores can support the development of next-generation communication systems.”

During the event, Creonic will demonstrate how its portfolio of high-performance IP cores integrates efficiently with AMD FPGA and adaptive SoC platforms, supporting scalable, power-efficient, and real-time communication system designs. As an Elite-level AMD Partner, Creonic ensures consistent compatibility, reliable performance, and comprehensive technical support across current AMD device families.

About Creonic

Creonic is the ISO 9001:2015 certified leader in ready-for-use IP cores, offering a rich services and product portfolio for wired, wireless, fiber, and free-space optical communications. Covering essential digital signal processing algorithms such as forward error correction, modulation, equalization, and demodulation, as a preeminent provider, our solutions support industry standards like 3GPP 5G, DVB-S2X, DVB-RCS2, CCSDS, and Wi-Fi. Designed for ASIC and FPGA technologies, Creonic's products meet the highest benchmarks of quality and performance. Trusted by dozens of customers worldwide, from innovative start-ups to global corporations, our IP cores power communications devices and chipsets, satellites, and NewSpace ventures, enabling unparalleled reliability and success in advanced communication systems.
