

## Creonic Successfully Completes ISO 9001:2015 Audit for 2026

**Kaiserslautern, Germany – July 1, 2026** – Creonic GmbH, a leading provider of high-performance communications IP cores, today announced the successful completion of its ISO 9001:2015 audit for 2026, reaffirming its commitment to quality management and continuous improvement.

The ISO 9001:2015 standard is an internationally recognized framework for quality management systems (QMS). By consistently aligning its processes with this standard, Creonic ensures reliable, efficient, and scalable development workflows for complex ASIC and FPGA-based communication systems.

The successful audit confirms that Creonic maintains structured processes to meet the stringent requirements of global customers in satellite, wireless, and optical communications. It also highlights the company's ongoing focus on delivering high-quality IP cores for standards such as DVB-S2X, CCSDS, and 5G-NR.

This achievement reinforces Creonic's position as a trusted partner for advanced communications solutions, supporting customers worldwide, from NewSpace innovators to established industry leaders.

### About Creonic

Creonic is the ISO 9001:2015 certified leader in ready-for-use IP cores, offering a rich services and product portfolio for wired, wireless, fiber, and free-space optical communications. Covering essential digital signal processing algorithms such as forward error correction, modulation, equalization, and demodulation, as a preeminent provider, our solutions support industry standards like 3GPP 5G, DVB-S2X, DVB-RCS2, CCSDS, and Wi-Fi. Designed for ASIC and FPGA technologies, Creonic's products meet the highest benchmarks of quality and performance. Trusted by dozens of customers worldwide, from innovative start-ups to global corporations, our IP cores power communications devices and chipsets, satellites, and NewSpace ventures, enabling unparalleled reliability and success in advanced communication systems.
